Thank you for bringing this paper to our attention.

As suggested we have done the following to meet IUPAC recommendations

1. MS spectrum has been fixed in 4 places
2. protonated ions has been replaced by protonated molecules
3. In the MS/MS the use of target ion has been replaced with precursor ion in 4 places

In addition we have

4. Used m/z rather than m/z throughout.
5. The unit amu has been changed to u.
