In my previous reply, I wrote

A6:
The variable $A$ is a coefficient defined by eq.(40).

and

A7:
The term $d(\Omega, \Omega_0)$ are derived from eq.(41),

by mistake.
I meant
A6:
The viable A is a coefficient defined by eq.(41).
and
A7:
The term \( d(\Omega, \Omega_0) \) are derived from eq.(40).
