Figure 1. Daytime portion of ATTREX Science Flight 3 on Feb. 14, 2013. The aircraft altitude is color coded. Three vertical maneuvers can be clearly identified.
Figure 2. Sensitivity runs 0 (base run), 1, and 2 for NO$_2$, according to the parameters given Table 5.
Figure 3. Sensitivity runs 0 (base run), 3, 4, 5, and 6 for NO$_2$, according to the parameters given Table 5.
Figure 4. Sensitivity runs 0 (base run), 7, 8, 9, and 10 for NO₂, according to the parameters given Table 5.
Figure 5. Sensitivity runs 0 (base run), 11, 12, and 13 for NO$_2$, according to the parameters given Table 5.
Figure 6. Sensitivity runs 0 (base run), 14, and 15 for NO$_2$, according to the parameters given Table 5.
Figure 7. Sensitivity runs 0 (base run), 16, 17, and 18 for NO$_2$, according to the parameters given Table 5.
Figure 8. Sensitivity runs 0 (base run), 19, 20, and 21 for NO$_2$, according to the parameters given Table 5.
Figure 9. Sensitivity runs 0 (base run), 22, 23, and 24 for NO$_2$, according to the parameters given Table 5.
Figure 10. Sensitivity runs 0 (base run), 25, and 26 for NO$_2$, according to the parameters given Table 5.
Figure 11. Sensitivity runs 0 (base run), 1, and 2 for BrO, according to the parameters given Table 5.
Figure 12. Sensitivity runs 0 (base run), 3, 4, 5, and 6 for BrO, according to the parameters given Table 5.
Figure 13. Sensitivity runs 0 (base run), 7, 8, 9, and 10 for BrO, according to the parameters given Table 5.
Figure 14. Sensitivity runs 0 (base run), 11, 12, and 13 for BrO, according to the parameters given Table 5.
Figure 15. Sensitivity runs 0 (base run), 14, and 15 for BrO, according to the parameters given Table 5.
Figure 16. Sensitivity runs 0 (base run), 16, 17, and 18 for BrO, according to the parameters given Table 5.
Figure 17. Sensitivity runs 0 (base run), 19, 20, and 21 for BrO, according to the parameters given Table 5.
Figure 18. Sensitivity runs 0 (base run), 22, 23, and 24 for BrO, according to the parameters given Table 5.
Figure 19. Sensitivity runs 0 (base run), 25, and 26 for BrO, according to the parameters given Table 5.
